Twister's Preschool Academy

Twister's Preschool Academy will be a "Developmentally Appropriate" preschool that will emphasize the importance of educational experiences as well as the art of gymnastics.

We are grounded in the belief that in order to complete the "whole child" concept, we will engage the child's interest in physical, social, emotional, and cognitive development.

We believe that children learn best through play and through real-life experiences. Play is a proven way to work through inner turmoil, learn acceptable social behavior, and problem solve.

We believe learning involves more than letters and numbers, but also exposure to art, music, social interaction, science, and physical activity.

We will use goals and objectives to evaluate our activities both in our classroom and in the gymnastics portion of our day.

We encourage family involvement and will welcome parents to share traditions with us.
